T SERiES

LED TURN LIGHTS

HANYOUNG NUX

T series

- Ø60 / Ø84 / Ø100 / Ø150 rotating continuous light, rotating continuous light and buzzer
- Various supporter mounting type
- Economical price, simple installation structure
- Protective cap with solid poly-carbonate material
- Rotational structure with the excellent abrasion resistive acetal gear
- Degree of protection IP 54
- Light source : LED

SPECIFICATIONS

Model	T060, T084	T060, T084	T060, T084 T100, T150	T060, T084, T100	T060, T084 T100, T150	T060, T084, T100
Appearance	 T060 T084 T100 T150					
Function	Rotating continuous light				Rotating continuous light / Buzzer	
Appearance	Round cap (Supporter installation type)	Square cap (Supporter installation type)	Square cap (Direct installation type)	Round cap (Direct installation type)	Square cap (Direct installation type)	Round cap (Direct installation type)
Power supply voltage	12 Vd.c., 24 Vd.c., 110 / 220 Va.c., 50/60 Hz					
Rotating speed	Approx 180 ± 15% time/min					
Light source	LED					
Buzzer volume	-				Approx 80 dB	
Cap material	Polycarbonate (PC)					
Body	ABS					
Lens color	Red, Yellow, Green, Blue					
Degree of protection	IP54 (IEC 60529)					

SUFFIX CODE

Model	Code						Content
T	□-	□	□	□	□-	□	Turn light
Dimensions	060						Ø60
	084						Ø84
	100						Ø100
	150						Ø150
Cap shape		P					Round cap ※except ø150 model
		F					Square cap
Functions			A				Rotating continuous light
			F				Rotating continuous light / Buzzer
Power voltage				D12			12 Vd.c.
				D24			24 Vd.c.
				A110			110 Va.c.
				A220			220 Va.c.
Cap colors					R		Red
					Y		Yellow
					G		Green
					A		Blue (only with Ø 84 model)
Mount						D	Direct installation type (basic type)
						M	Supporter installation type ※ only with Ø60/ Ø84 models with rotating continuous light
